

Canadian Academy of
Manipulative Physiotherapy

CAMPT

Become an FCAMPT:
The Standard for Exceptional Care

What is CAMPT?

Canadian Academy of Manipulative Physiotherapy (CAMPT) is a professional organization of physiotherapists who have completed post-graduate training in hands on therapy treatment techniques

By delivering research-guided physiotherapy care, our patients:

- ▶ **Get Better** using techniques that meet international standards
- ▶ **Recover Faster** since we find and target the root cause with focused treatments
- ▶ **Stay Healthier** by educating them about their condition to reduce relapse.

CAMPT Affiliations

CAMPT is Canada's member organization of the International Federation of Orthopaedic Manipulative Physiotherapy (IFOMPT)

IFOMPT is a subsection of the WHO to monitor and encourage a high level of standardization among orthopaedic physiotherapy worldwide

The World Confederation for Physical Therapy (WCPT) is the sole international voice for physical therapy

Benefits of being FCAMPT

Membership gives you the right to use the designation Fellow of the Canadian Academy of Manipulative Physiotherapy (FCAMPT)

- ▶ FCAMPT is a trademarked and protected title

CAMPT-Certified program is designed to raise awareness of the FCAMPT title.

Key elements of this program include:

- ▶ CAMPT-Certified Get Started kit
- ▶ CAMPT website and social media
- ▶ Training and support
- ▶ Outreach

CAMPT-Certified Get Started Kit

Members receive our CAMPT-Certified package that includes:

- ▶ Professional embossed seal with personalized registration number
- ▶ 8GB USB key with new logos and printable forms in French and English
- ▶ *Get Started* instructional guide
- ▶ Sample manipulation information pamphlet for patients
- ▶ Sample FCAMPT educational handout for patients with place to staple business cards
- ▶ Double-sided window or wall CAMPT-Certified sticker

Download a digital version of your seal and the material above in the members area of the CAMPT website

CAMPT Website and Social Media

The CAMPT website explains the benefits of FCAMPT certification to patients, practitioners, and students

- ▶ Search function on the home page enables patients and practitioners to find local CAMPT-Certified physiotherapists

CAMPT is also building an active presence on Facebook, Twitter and LinkedIn to build awareness of CAMPT.

Training and Support

Continued professional development

- ▶ Discounted rates to CAMPT sponsored manipulative physiotherapy refresher courses across Canada
- ▶ Discounted rates to Ortho Div partnered Ortho Symposium

Networking and marketing opportunities with other members exist at various events.

Voting rights for CAMPT initiatives

Outreach

Supports international initiatives that promote manual therapy curriculum in developing countries

Provides research funding assistance to Canadian and internationally-driven projects annually

FCAMPTs have opportunities to become a mentor or instructor as part of the certification processes

Ongoing CAMPT Marketing Initiatives

Plans to promote FCAMPT qualifications to the public, physicians and insurance companies **to make CAMPT-Certified a recognized brand**

- ▶ Ongoing web and social media efforts
- ▶ Marketing plan under development

Start by encouraging adoption of CAMPT-Certified brand by FCAMPTs

- ▶ How to leverage the CAMPT brand email series
- ▶ Conduct survey for feedback on the program

Global Links

Global representation

- ▶ Transferable qualifications
- ▶ International initiatives
- ▶ Reciprocity in select IFOMPT countries

Becoming a FCAMPT

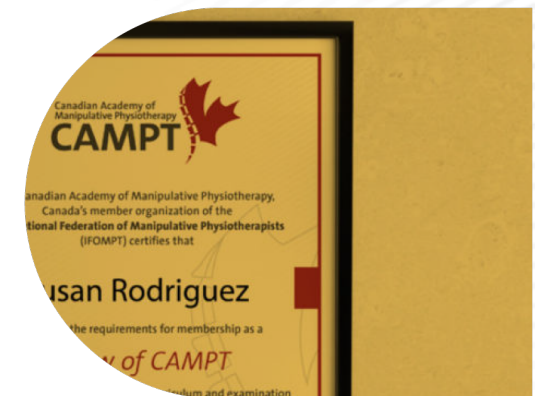

Requirements for becoming FCAMPT:

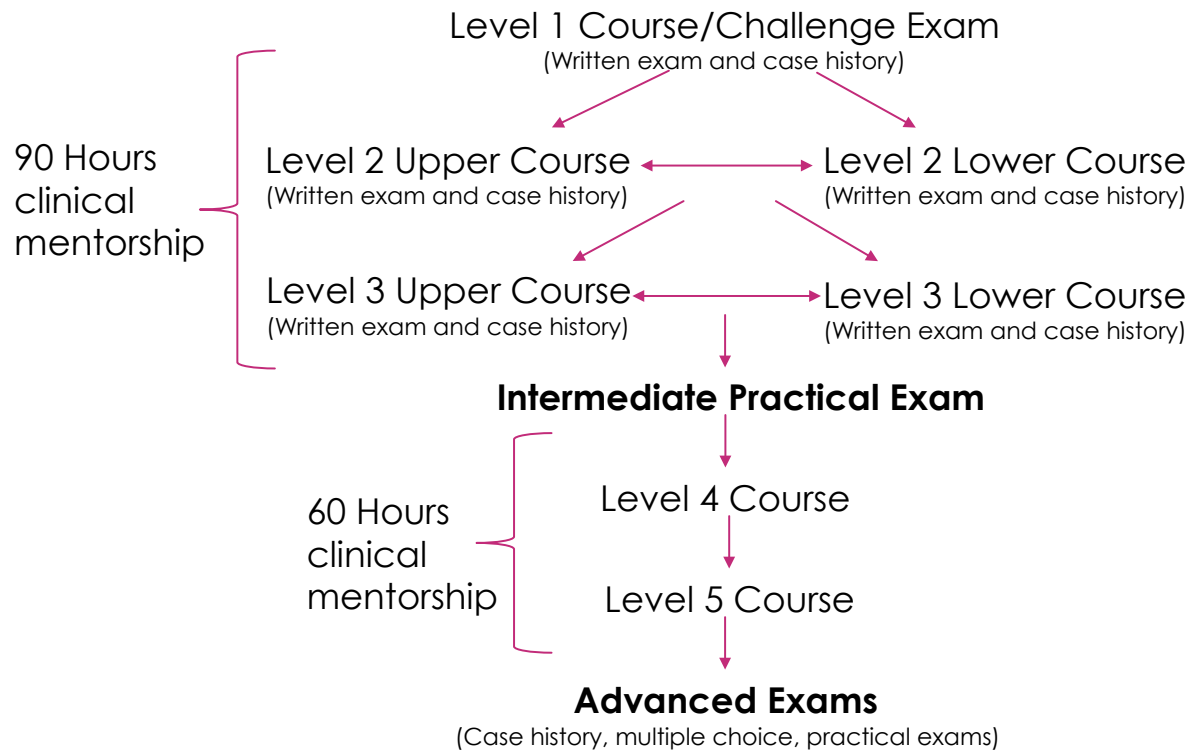

- ▶ Licensed physiotherapist
- ▶ Successful completion of an IFOMPT accredited program
- ▶ Current membership with the Canadian Physiotherapy Association
- ▶ Current membership with the Orthopaedic Division of the Canadian Physiotherapy Association

Canada offers three IFOMPT accredited programs

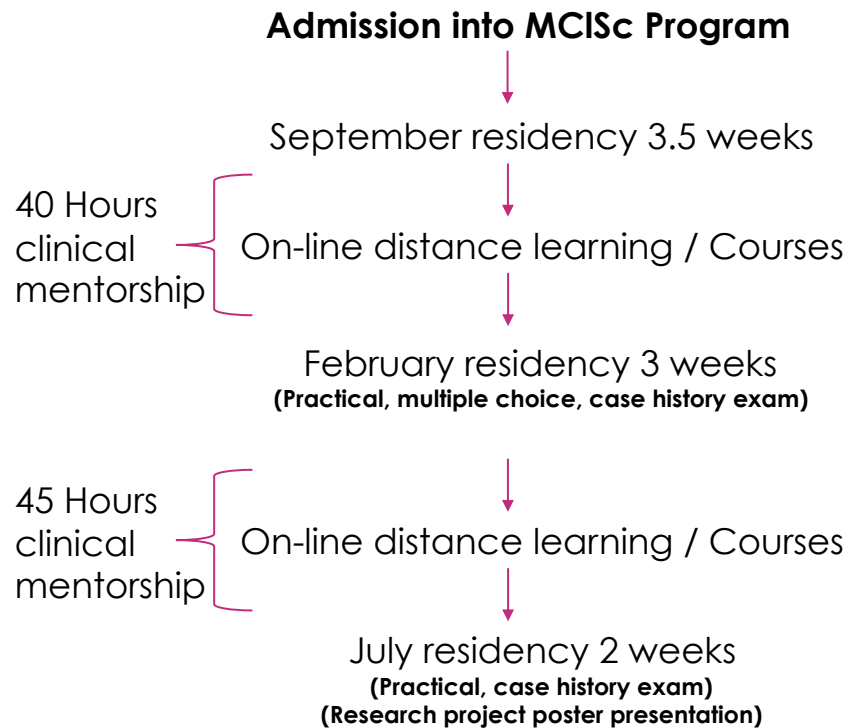

- ▶ CPA Orthopaedic Division ■ Level System
- ▶ Western University ■ Masters of Clinical Science
- ▶ McMaster University ■ Masters of Science (Rehabilitation Science)

Diploma of Advanced Orthopaedic Manual and Manipulative Physiotherapy

Masters of Clinical Science (Manipulative Therapy)

Area of Specialization: Orthopaedic Manipulative Physical Therapy (OMPT)

Masters of Science (Rehabilitation Science)

Admission into 2-3 year Program (start Sept or Jan)
